BECOME A VOICE FOR THIS STATE'S VICTIMS - SIGN THIS PETITION[1]

Although the overall treatment of crime victims has seen vast improvements, problems remain in enforcing victims' laws. The statutes often lack procedures for administration and execution of the rights and services they provide. Many jurisdictions also have no remedies available to victims, leaving them without legal recourse. Please sign below to empower the legislature.

"We, the undersigned, ask our state legislature to enact meaningful and enforceable rights for victims consistent with the provisions of 18 U.S.C. §3771, the Federal Crime Victims' Rights Act signed in 2004. Moreover, we ask that the Legislature support amending the state constitution so these rights become embedded in the fundamental law of our state."
